**Dual-Function (Spray / Bubbling)**

Ozone Machine

*The Ecozone Blue Salon Shower Head combined with the Ozone Generator & Air-In Valve enhances the cleaning potential and improve the health of your hair. The ozone micro-bubbles penetrate deep into the pores to sterilize and deodorize your scalp and hair. Ozonated water can also remove excessive oil and those embarrassing white flaky dandruff scales. As a reputable hair stylist, you can give your customer an eco-friendly ozonated shampoo treatment while saving the environment and water.*
