

Simply Modern Faucet Specifications

Who We Are

As a pioneering and forward-thinking Kiwi company, Ecozone Blue Limited strives to uphold and enhance the clean, green, New Zealand image. We are a growing business at the leading edge of chemical-free, ozone-generating technology and application solutions for our valued customers. We are revolutionizing the way you think and go about disinfecting, sanitizing and deodorizing your domestic, commercial and industrial spaces. Our revolutionary approach only uses nature's own ingredients: water and ozone. By doing so we save you time and money while improving the quality of your health, the environment, and our planet.
